

**QUARTERLY PROGRESS-TO-DATE REPORT
FOR
TRADITIONS METROPOLITAN DISTRICT
DATED: SEPTEMBER 24, 2024**

Pursuant to HB24-1454, § 24-85-103(2.5), C.R.S., and 8 CCR 1501-11 Governor’s Office of Information Technology Rules Establishing Technology Accessibility Standards (the “**Rules**”), Traditions Metropolitan District (the “**District**”) are required to provide a progress-to-date report that demonstrates concrete and specific efforts toward compliance.

For the quarter beginning October 1, 2024, the District make the following report:

1. Accessibility Scan of Digital Services and Content.

The District has conducted periodic reviews of the front facing pages for accessibility and is keeping quarterly scans on file. (**Exhibit A**)

2. Progress on Remediation of Digital Content.

The District has initiated an inventory of all digital content to identify documents that need to be remediated and has engaged a third-party vendor to remediate documents.

3. Goal to Reach Full Compliance Under the Rules.

The District has a plan in place with a goal to have all digital content remediated by July 1, 2025.

1. Your current accessibility / risk snapshot

Overall accessibility and risk score

Your current accessibility & risk rating score: **87/100 (FAIL)**

It appears your website needs a bit of work to reach accessibility, but don't worry you're not alone. Countless other districts are in the same boat. The most important thing to do is set up a plan to reach compliance.

Why is 100% compliance critical?

- More than **2,403 districts** have been affected by an accessibility action. About 6% of all districts in the US, including county-dependent districts have been fined, received demand letters, or gotten Department of Justice Office of Civil Rights (OCR) letters for website ADA violations in the US. **That number is expected to exceed 4,000 (10%) by the end of 2024.**
- **The number of lawsuits rose 56% in 2021, and the penalties for noncompliance are rising fast** – averaging \$4,000 for an ADA claim in 2019 to \$39,000 in 2022. It's a situation that The Wall Street Journal calls "very perilous" in a [recent article](#).
- **Very few if any**, special district insurance policies even partially cover the costs of web accessibility issues.

2. Top accessibility issues found on your site

Accessibility issues come in all shapes and sizes. Some are more obvious to the naked eye like "color contrast issues". However, others are more structural in nature and related to the code that's on your site. These types of issues affect how screen readers interpret your content. Here's what we found on your site:

Your accessibility issues	Total
 Background and foreground colors do not have a sufficient contrast ratio.	124
 Document does not have a main landmark.	12
 Buttons do not have an accessible name	11
 Requires investigation - duplicate-id-active	3
 Links rely on color to be distinguishable.	2
 Identical links do not have the same purpose.	2
 Heading elements are not in a sequentially-descending order	2
 Form elements do not have associated labels	1
 Form fields have multiple labels	1
 Links do not have a discernible name	1

[How to fix these issues](#)

3. Pages that need to be fixed

The following pages on your site require remediation to become ADA compliant. We recommend using Google Analytics to discover which of these pages currently receive the most web traffic and starting there.

Page(s)	Score
 Traditions Metropolitan District	85
 Meetings – Traditions Metropolitan District	86
 Financial – Traditions Metropolitan District	85
 Documents – Traditions Metropolitan District	89
 Resolutions & Agreements – Traditions Metropolitan District	89
 District Map – Traditions Metropolitan District	87
 Election – Traditions Metropolitan District	89
 Board – Traditions Metropolitan District	87

How to fix these pages

4. Your timeline to reach accessibility

Obviously, **timeline is the big question**. While we don't know all the ins and outs of your organization or tech stack, we do know the major factors that can affect the timeline of your accessibility plan. We've laid out the known factors and a couple of scenarios below that would get you back to compliance and away from risk.

Factors for your timeline

Factor 1: Your CMS	WordPress
Factor 2: The type of errors on your site	Structural + Presentational
Factor 3: The volume of errors on your site	159
Factor 4: The amount of time your staff has available to work on remediation	Unknown

Estimated Remediation Scenarios

Option 1: Do it yourself

 Between 45 - 90 days of hands-on remediation.

Plan for dedicated developer and staff time each week.

[Share this report with your web developer](#)

Option 2: Hire a remediation service

 Custom quote required for timeline.

Plan for an in-depth audit, a full website remediation project, and ongoing fees (in addition to current website and hosting).

Option 3: Use an accessible-first website platform

✔ Our special district website partner [Streamline](#) will convert your site to a fully-compliant platform for you.

Plan for 1 hour of staff training. Includes ongoing accessibility, state compliance tools, indemnification against ADA claims, and unlimited support.

[Get a Quote](#)

5. Your monthly progress tracker

Charting your progress is a key component of remediation. To make this step easy for you, we'll record up to 6 months of accessibility metrics for your site below. Feel free to [share this report](#) with your team or board members.

Month	Overall
